Course summary

This free course, Everyday maths 1, is designed to bring your learning to life, inspiring you to improve your current maths skills or helping you to remember any areas that you may have forgotten. Working through the examples and interactive activities in this course will help you to, among other things, run a household or make progress in your career.

Learning outcomes

By completing this course, the learner should be able to:

- understand practical problems, some of which are non-routine
- identify the maths skills you need to tackle a problem
- use maths in an organised way to find the solution you're looking for
- use appropriate checking procedures at each stage
- explain the process you used to get an answer and draw simple conclusions from it.

Completed study

The learner has completed the following:

Session 1

Introduction and guidance

Session 1: Working with numbers

Session 2

Session 2: Units of measure

Session 3

Session 3: Handling data

Session 4

Session 4: Shape and space

Session 4 compulsory badge quiz (score 86%)
